# ABOUT US

PARADIGM STONE INDIA Pvt. Ltd is a quartz slabs moulding company established in the year 2017. It is associated with an established granite processing company named "PARADIGM GRANITE PRIVATE LIMITED", having an experience of 10 years in stone industry.

Our aim is to be one of the dependable global player in the intercontinental market and establish a business co-operation through relationship building. We are an exclusively professionally managed company engaged in the dealing of a wide range of the artificial stones.

Company has installed its state of art facility in Krishnagiri Tamil Nadu, India. We are spread across 3,70,000 sq. feet of land. Company has imported and installed entire range of ultra modern automatic machines which are capable of producing world class quality products. We at PARADIGM STONE INDIA, manufactures various colors of quartz slabs like Calacatta series, Carrara series, Plain series, Galaxy series and many more varieties.

Our entire range of products is of world class quality and available at highly competitive prices, which have made us the first choice for customers outside the boundary of the country.

Advantages

Comparison between  
Quartz | Granite | Marble

CHARACTERISTICS	QUARTZ	GRANITE	MARBLE
Resistance to chemicals	High	Moderate	Low
Hardness	High	Moderate	Low
Resistance to impact	High	High	Low
Resistance to Stains	High	Moderate	Low
Resistance to Scratch	High	High	Low
Resistance to oil Absorption	High	Moderate	Low
Heat Resistance	High	Moderate	Low
Non Porous	High	Low	Low
Resistance to microbial growth	Low	Low	High
Cost saving through low wastage	High	Low	Low
Maintenance	Low	Low	High
Saving on installation	High	Low	High
Resistance to water absorption	High	Moderate	Low
Size consistency	High	Low	Low
Colour Consistency	High	Low	Low
Supply Consistency	High	High	Low
Colour/Pattern/Texture options	High	Low	Moderate

Specifications

Quartz slab technical specification  
Slab size - 324 cm x 162 cm, 324 cm x 145 cm & 324 x 195 | Thickness - 2.0 cm, 3.0 cm

Property	Results	Method
Water Absorption	<0.05%	ASTM C97-09
MOH's Hardness	6.5-7	moh's hardness scale
Thermal Shock	No Damage Passed 5 cycles	ASTM C484
Compressive Strength	24000 psi	ASTM C170
Flexural Strength	8500-9000 psi	ASTM C880
Moisture Absorption	negligible	ASTM C97
Abrasion Resistance	89-190 mm3	ASTM C1253
Density	2.4 g/cm3	ASTM C373
Cigarette test	unaffected	ANSI Z124.6
Stain Resistance	unaffected	ANSI Z124.6
Bond Strength	205 ppsi	ASTM C482
Wear Resistance	unaffected	ANSI Z124.6
Thermal Expansion	1.2 x10 -5 inch/f	ASTM C531
Chemical Resistance	unaffected	ASTM C650
De-icing Resistance	unaffected	ASTM C672
Freeze-thaw resistance	No Damage Passed 15 cycles	ASTM C1026
Surface Burning Characteristics	17 (class A/1 rating)	ASTM E84

Care & Maintenance

Like all fine materials, **Paradigm Quartz** responds best when handled with due care and attention. Remember, it is always easier to wipe up a spill than it is to handle a dried-on stain. Just wipe away any spilled food before it turns into a permanent stain.

Remember that detergents containing bleach and hard scouring granules may harm surfaces over time. Therefore, pay due attention in your detergent selection by never using cleaning products that contain soft or hard scouring granules such as Vim Scouring Powder or Cif Cream.

Products with pH close to neutral or with reduced pH effect (general cleaning products which may be commercially available on shelves) may be used at all times. However, prolonged contact with decalcifiers and products containing decalcifying agents as well as oil solvents and products containing oil solvents must be avoided.

Gently scrape away a plastic spatula any spills of paint, nail enamel, chewing gum, mustard and grease that become hard to remove when dried. Then cleanse the surface with water.

Quartz, being one of the hardest minerals on earth, offers **Paradigm Quartz** an unparalleled strength and durability that prevent easy scratching and damage. Still, as with any surface, **Paradigm Quartz** can be permanently damaged by exposure to strong forces that undermine its physical properties. In order for your countertop to maintain its good looks for many years, always use a bread/chopping board and a table mat (trivet).
